

**PART
2**

 To be completed
by
ATTENDING
PHYSICIAN
(issue in
quadruplicate)

This form is intended to provide CONFIDENTIAL information to enable the airlines' MEDICAL Departments to assess the fitness of the passenger to travel as indicated in PART 1 hereof. If the passenger is acceptable, this information will permit the issuance of the necessary directives designed to provide for the passenger's welfare and comfort.

The PHYSICIAN ATTENDING the incapacitated passenger is requested to ANSWER ALL QUESTIONS. (Enter a cross -X- in appropriate -yes- or -no- boxes and/or give precise concise answers).

COMPLETING OF THE FORM IN BLOCK LETTERS OR BY TYPEWRITER WILL BE APPRECIATED.

The form must be returned to:

(Carrier's Designated Office)

Airlines' Ref. Code MEDA 01	PATIENT'S NAME, INITIAL(S), SEX, AGE:		
MEDA 02	ATTENDING PHYSICIAN Name & Address		
	Telephone Contact	Business:	Home:
MEDA 03	MEDICAL DATA DIAGNOSIS in details (including vital signs)		
	Day/month/year of first symptoms	Date of diagnosis:

Guiding principles - Although each case will be considered separately, the following conditions are generally considered unacceptable for air travel.

- Very severe and critical conditions, such as: the severely decompensated cardiac patient or the patient who has sustained a recent coronary occlusion with myocardial infarction. Such cases are not normally eligible within six weeks of the onset.
- Those patients with entrapped gas such as a recent-pneumothorax or who have air introduced into the nervous system recently for ventriculography.
- Psychotic patients requiring heavy sedation or restraint.
- Severe cases of otitis media with blockage of the Eustachian tube.
- Acute contagious or communicable diseases.
- Pregnancy beyond the 36th week, subject to restrictions.
- Recent cases of poliomyelitis unless one month has elapsed since onset of disease. Pulbal cases of the Phylitis, subject to restrictions.
- Persons with large mediastinal tumors, extremely large unsupported hernias, intestinal obstruction, cronical diseases involving increased pressure, fracture of the skull and those with recent fracture of the mandible with permanent wiring of the jaw.
- Recent surgical cases with insufficient time for wound healing.
